Special Cable Despatch to The Sun. London, Jan. 5.—The Russian General Staff still maintains official silence in regard to the new invasion of Hungary by the Russian armies, but from many points there comes information that the movement is well under way. A despatch from Petrograd says that eight towns on the Hungarian plains have already been occupied and that 200,000 men are marching toward Budapest.

In addition to this situation the utmost interest attaches to the action of the Russian forces not only in East Prussia and Poland, but likewise in Trans-Caucasia. The surrender of one entire two others, one of which is now be lieved to be surrounded, are reported

The night communiqué issued by the Russian General Staff in Petrograd throws little light upon operations on the several fronts to-day, except to tell of still another victory over the Aus trians, this time in Uzok Pass, in the Carpathians. The statement follows:

On the left bank of the Vistula yesterday there was a continuation of rifle and artillery fire. In the neighborhood of and to the south of Borlimow there were belated encounters.

There are no changes to record in the situation in Galicia. In the Uzok Pass the retreating Austrians were attacked by our cavalry, who fell on their rear flank by traversing mountain paths. In a deep snow and with a violent storm raging we took as prisoners some ten officers, including the commander of the detachment and more than 450 men.

Of prime political importance as well as of military significance is the complete success of the Russians in western Galicia, where they have swept the Austro-Hungarian troops entirely out of Bukowina, have occupied the territory along the Rumanian border and are now pressing through Borgo Pass, in the Carpathians, to invade Hungary from the south, and likewise to give a display of impressive strength Transylvania, Austro-Hungarian territory now but once Rumanian, and sti having 1,500,000 Rumanians in a total
